

Purpose

This questionnaire aims to gather information about your experiences of implementing a mental health promotion tool. Each report will be based on the experiences of type II and type III field trials of the ProMenPol project: Type II field trials implemented a mental health promotion tool during the course of the EU-project and type III field trials report on prior experiences with implementation of the respective MHP tool. If the author of the report agrees, the publication of the report will be linked to the toolkit on the ProMenPol website in order to facilitate the transfer of knowledge and experience to actors involved in practice and at policy level.

Notification

In order to promote mental health promotion to other potential users of mental health promotion, we would like to publish your answers to the questions below. This report will be made available online on the ProMenPol website (www.mentalhealthpromotion.net).

Do we have your permission to publish this report including your contact details?

Agree Disagree

If you disagree: Do we have your permission to publish your report anonymously?

Agree Disagree

Qualitative Report

1. Which mental health promotion tool was put into practice?

2. In which Setting have you implemented the MHP tool?

School Workplace Residences for older people

2.1 Please provide a short description of the setting.

3. Prior to implementation of the tool, which preparatory actions (in regards to needs analysis, selection of the intervention, developing a delivery plan) were taken?

4. During the implementation, did you encounter any problems and, if so, which solutions were adopted?

5. Which evaluation was carried out and what were the results? Do you plan to carry out any follow-up activities?

6. What lessons have you learnt from using the tool?

7. Did the tool meet your organisational needs and in which type of organisation you would recommend the tool be used?
